What we mean by service design - Government Digital Service

What we mean by service design. First, let's be clear - service design is the design of services. To a user, a service is simple. It's something that helps them to do something - like learn to drive, buy a house, or become a childminder. However, search online for service design right now and you'll find a seemingly endless array of toolkits and design processes - Five circled

The Principles of Service Design Thinking - Building ...

Service design is all about taking a service and making it meet the user's and customer's needs for that service. It can be used to improve an existing service or to create a new service from scratch. In order to adapt to service design, a UX designer will need to understand the basic principles
