Sports stadiums with the 'Wow ' factor deliver extra

Using the stadium's completion date enabled them to see precisely how prices rose (or fell) after work was finished. They then applied economic models to account for differences which were attributable to other environmental factors such as new roads or other infrastructure improvements. With these variables accounted for, say the authors, it is reasonable to attribute the remaining rises or falls in property value to the 'aura' of the stadium its impact on the built environment.
